Install

Libby.
The award-winning,
much-loved app
for libraries.

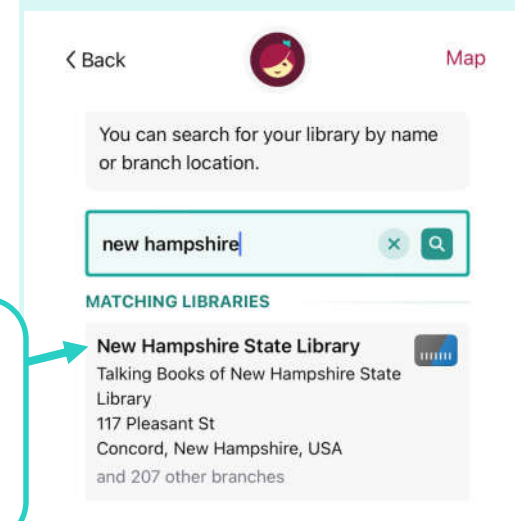

Make us thousands of public libraries, audiobooks and audiobooks (for free!) in Libby. Let me ask you a few questions, to guide you to your library.

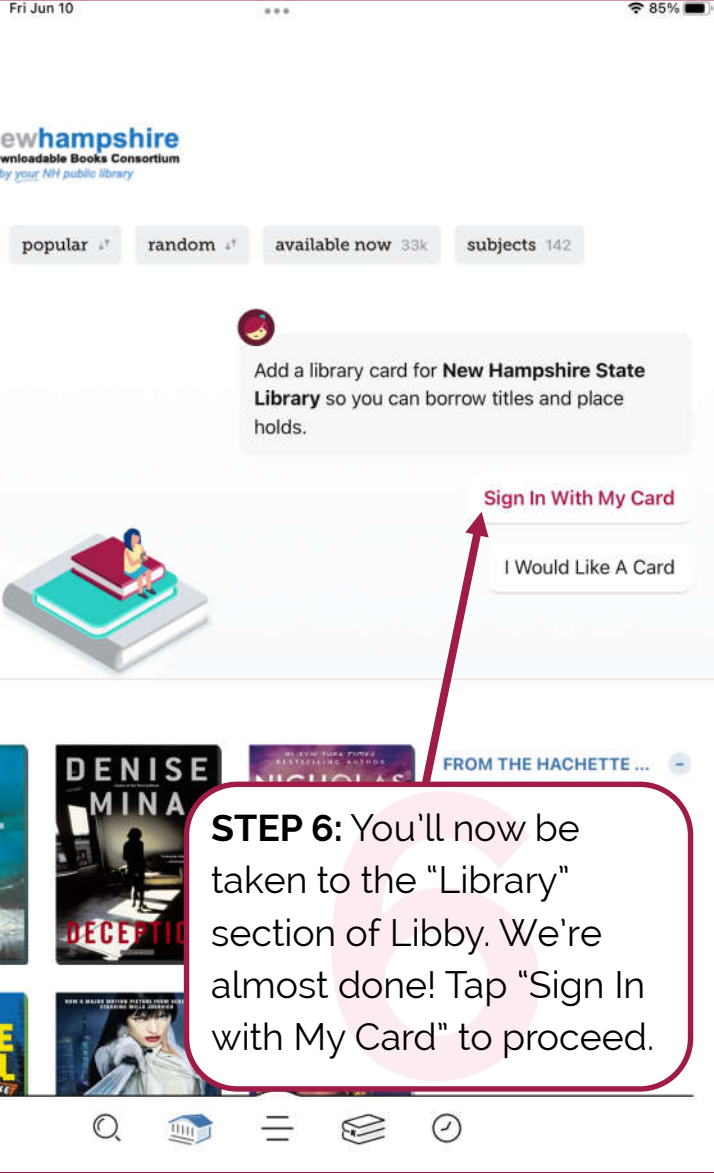

STEP 3: This welcome screen will appear the first time you open Libby. Tap "Yes" to begin the signup process.

STEP 4: To find your library use the "Search for a Library" option.

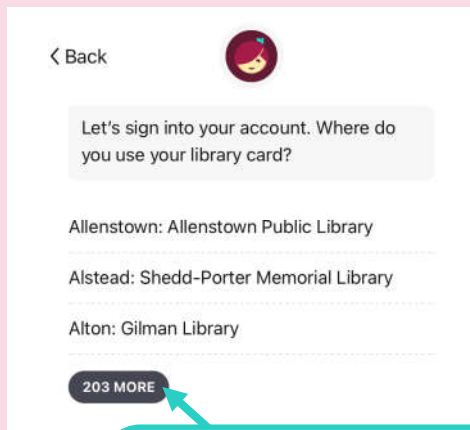

STEP 5: Search for "New Hampshire" and choose the New Hampshire State Library.

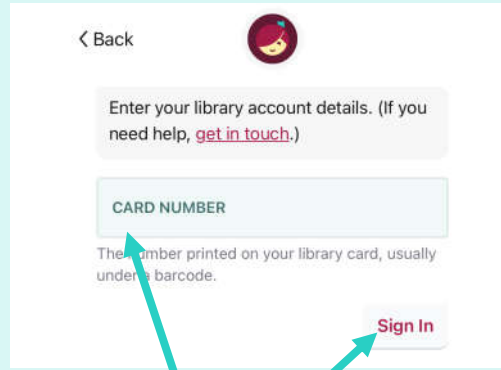

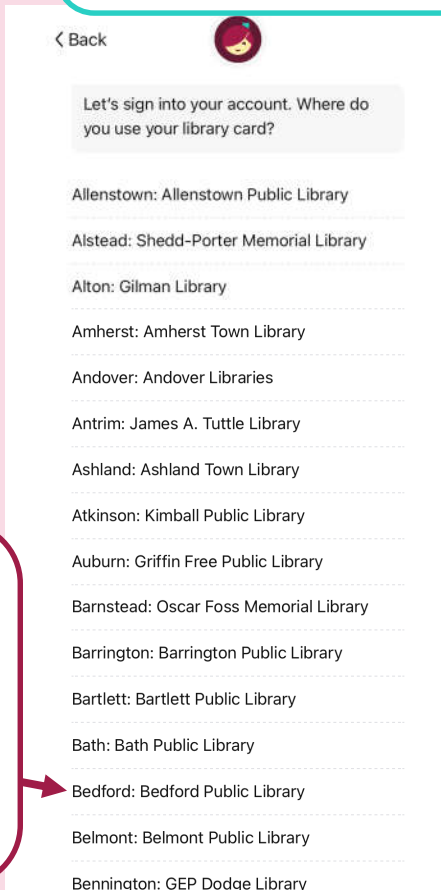

STEP 6: You'll now be taken to the "Library" section of Libby. We're almost done! Tap "Sign In with My Card" to proceed.

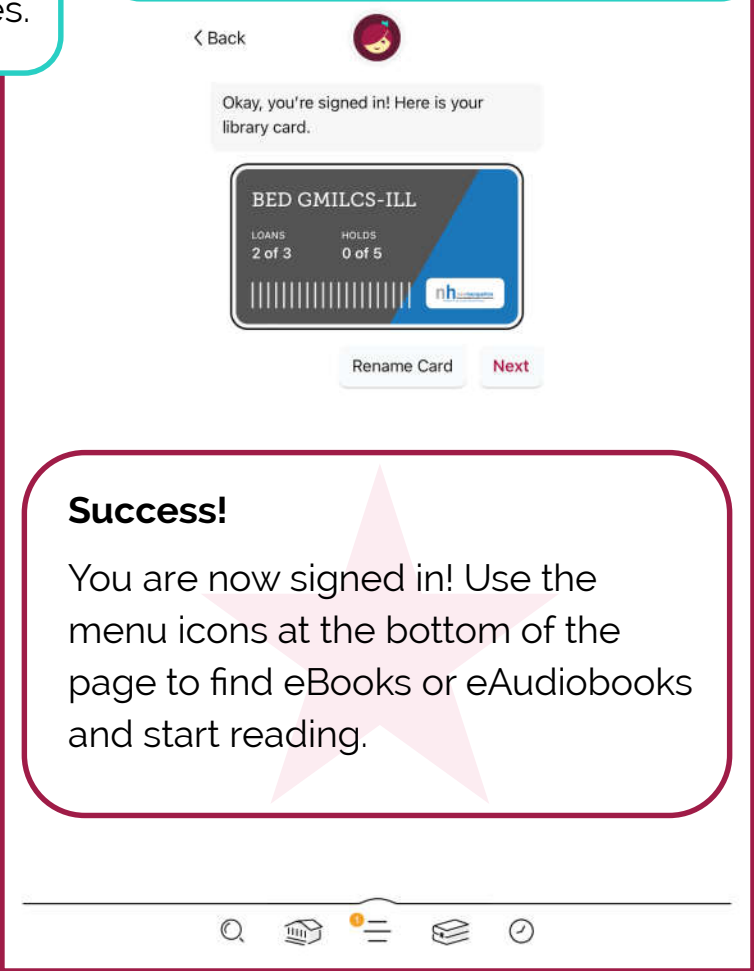

STEP 8: Select "Bedford Public Library."
****If you are using a card from another library, you must select that library instead. All NH library cards have access to the same eBooks, but each card number can only be authenticated by its own library.****

STEP 7: Tap "203 MORE" to expand the list of New Hampshire libraries.

STEP 9: Enter the number from the back of your library card (no spaces) and tap "Sign In."

Success!
 You are now signed in! Use the menu icons at the bottom of the page to find eBooks or eAudiobooks and start reading.
